UNIVERSITY**
MADRID

Andreea Niculcea
'05 BSBA
Summa Cum Laude

Andreea Niculcea '04 BSBA, Summa Cum Laude

Andreea has embodied the Jesuit ideal of “magis” since she was a student on our campus, continually exceling at everything she does.

After completing her Business Administration degree at SLU-Madrid, she worked as a Consultant at Interbrand before pursuing an MSc in Financial Management at the University of London. She then moved into management positions at Bankinter and Innotarget in Madrid before moving to Beijing to serve as the managing director at trommsdorff + drüner, and later to Berlin to serve as their Director of International Business Development. For the past two years Andreea has worked at Banca March in Mallorca, first as the Chief Data Officer, and now as the Chief Digital Transformation Officer. She also serves as an advisor to various startups.

Andreea is truly a citizen of the world who honors the principles of Jesuit education in her work.
